

## ENTRY-02

# Azure Entry Blueprint

## DURATION

**2 days**

## FORMAT

On site or remote, with an Azure Migrate assessment of your estate · German or English

## AUDIENCE

IT leadership and admins who want to move from Windows Server in their own data center or from VMware to the cloud and want to know beforehand what it costs, what stays and what goes first.

*Certification anchor: No exam focus, content aligned with AZ-104 and AZ-305. The result is an entry blueprint with landing zone, cost model and first migration wave.*

## OUTCOMES

- ▶ Azure Migrate assessment of your estate: sizing, cost and readiness per workload
- ▶ Landing zone by the Cloud Adoption Framework: identity, network, governance, cost control
- ▶ Cost model with Hybrid Benefit, reserved instances and savings plans, compared with today's operations
- ▶ First migration wave with order, schedule and abort criteria

## AGENDA

|       |                                                                                    |
|-------|------------------------------------------------------------------------------------|
| Day 1 | Current state, Migrate assessment, target picture, landing zone design, governance |
| Day 2 | Cost model, licenses, plan wave 1, operating model after migration, roadmap        |

## YOUR TRAINER

**Dino Bordonaro**

Microsoft MVP for eight consecutive years (award categories Microsoft Azure and Cloud and Datacenter Management), Microsoft Certified Trainer, almost 30 years in IT. Trains Microsoft partners, among others for the ADN distribution. His strength: he connects sales and technology. Pricing models, objections and architecture in a language that decision makers and engineers both understand. More than 800 professionals trained, every concept proven in his own enterprise lab in a TÜV-audited datacenter.

**€15,800** plus VAT

Team flat rate for two training days, 4 to 12 participants. On site plus travel expenses.
