

SEC-05

Azure Security & Identity Deep Dive

DURATION**5 days****FORMAT**Remote live in express format, in-house
optional · German or English**AUDIENCE**Security engineers and admins with security responsibility,
especially in critical-infrastructure and regulated
environments.*Certification anchor: SC-100, SC-200 and SC-300 as the certification map, zero trust as the method framework.***OUTCOMES**

- ▶ Design and justify zero-trust architectures per SC-100
- ▶ Secure identities with Entra ID: Conditional Access, PIM, Identity Protection
- ▶ Detect and handle threats with Defender XDR and Sentinel
- ▶ Translate critical-infrastructure and NIS2 requirements into Azure security controls

AGENDA

Day 1	Pre-flight check: zero trust, security baseline, current threat landscape
Day 2	Identity per SC-300: Entra ID, Conditional Access, PIM, Identity Protection
Day 3	Security operations per SC-200: Defender XDR, Sentinel, KQL, incident response
Day 4	Architecture per SC-100: zero-trust design, governance, critical-infrastructure and NIS2 mapping
Day 5	Landing: capstone scenario, review, certification roadmap

YOUR TRAINER**Dino Bordonaro**

7x Microsoft MVP (Azure, Azure Hybrid, Cloud & Datacenter Management), Microsoft Certified Trainer, almost 30 years in IT. Trains Microsoft partners, among others for the ADN distribution. His strength: he connects sales and technology. Pricing models, objections and architecture in a language that decision makers and engineers both understand. More than 500 professionals trained, every concept proven in his own Tier 4 lab.

from €5,250 plus VAT

Per person, 5 training days. In-house from €6,900 per training day, up to 12 people.
