

Dino Bordonaro

CEO BORDONARO IT GmbH & Co. KG · 7x Microsoft MVP · Microsoft Certified Trainer

Sovereign cloud architect and owner-operator. Almost 30 years in IT, close to 20 years in datacenters, entrepreneur since 2008, CEO of BORDONARO IT GmbH & Co. KG since 2014. Microsoft has awarded me MVP status every year since February 2019, to this day: defended for the seventh time, and since 2024 holding three titles at once (Azure, Azure Hybrid, Cloud & Datacenter Management). Fewer than 4,000 experts worldwide carry this award. In my categories, fewer than 30 exist across the entire DACH region.

MVP status opens the door to Microsoft's product teams and to knowledge before it is published: at the Azure Local launch in Germany I was the only partner officially on stage with Microsoft. My references: Schaeffler, Mercedes-Benz, BMW, Vorwerk, Wacker Chemie, Bayer, Deutsche Bahn, Deutsche Telekom, Microsoft and Dell Technologies. From architect level to the board room: I translate between C-level and tech, professionally and politically. Every architecture flies first in my own Tier 4 lab, then at the customer.

AT A GLANCE

7x Microsoft MVP, every year since 2019

19 Microsoft certifications

Tier 4 own lab in Data Center Rhine-Neckar II (PFALZKOM)

3 MVP categories held at once since 2024

500+ professionals trained

EDRY home base Speyer, working worldwide
